

## Difference In Intelligence Of Classes Revealed

There is marked difference in intelligence among children of different social classes, which is established as early as two or three years of age and remains unchanged throughout childhood.

The nature and origin of these differences are discussed by Dr. Harold E. Jones, professor of psychology and director of the Institute of Child Welfare on the Berkeley campus of the University of California, in a chapter which he contributed to a new textbook, Manual of Child Psychology.

In his chapter on Environmental Influences on Mental Development, Dr. Jones points out ways in which both inheritance and environment contribute to differences in intelligence.

Persons of inherited superior mental ability tend to choose occupations which give a higher standard of living and greater social success.

## AFL To Stage 'Spectacle Of Progress'

The American Federation of Labor will stage a gigantic "Spectacle of Progress" at the Los Angeles Coliseum the night of September 2, as a fitting tribute to the celebration of Labor Day, according to W. J. Bassett, secretary of the Central Labor Council.

Among the highlights featured in the entertainment are: The Magic Circle of Motion Picture Stars, the Pageant of California Styles, the Mammoth Five Ring Circus and Atomic Fireworks Extravaganza.

George Murphy, president of the Screen Actors' Guild, heads a committee which will select outstanding stars to appear before the holiday crowd.

Beautiful sun-kissed girls will accent the growth and importance of Los Angeles as the fashion center of the world. The Pageant of California Styles will display the creative and manufacturing sources of an industry that has become internationally recognized.

For whole-family fun the "Spectacle of Progress" will offer one of the greatest aggregations of top performers of the Big Top ever gathered for one show. The feature of this portion of the program will be a "Slide for Life" by "Tiny" Klein, from the top of the parastyle, through seven hoops of fire to the center of the Coliseum.

The atomic climax of this star-studded show is a fireworks wonderworld for which 25,000 seats are off limits to insure the best view of the greatest fire filled spectacle since Biltini.

**CHEESE TEMPERATURE**  
Because cheese becomes tough and stringy if too much heat is used, home economists recommend that it be melted over low heat and added to hot dishes before removing them from the heat. It's less apt to curdle than when combined with flour in a white sauce.

## American Legion Opposes Health Insurance Plan

Warning of increased tax burdens and regimentation of the medical profession, the American Legion of California, at its 28th convention here of more than 5,000 delegates, reaffirmed its 1945 opposition to compulsory health insurance legislation.

Citing the fact that its rehabilitation commission, responsible for the rights and welfare of disabled wounded service men, had protested last year against proposed plans for compulsory health insurance, the Legion's resolution declared that California's more than 1,000,000 veterans who have served in the armed forces now have available to them hospital and medical care provided by the United States government. Payroll deductions that may be forced on the veteran would be a cost for services already supplied.

In calling attention to the "countless voluntary health insurance companies," the Legion's resolution, brought to the floor by national executive committeeman Leon Happell, Stockton, declared:

"Proposed plans of compulsory health insurance would increase the tax burden and bring about regimentation of the medical profession."

The Legion resolution concluded with the statement that all forms of compulsion are incompatible with our American way of life "since our liberties and opportunities would be circumscribed."

The 5,000 convention delegates represented approximately 170,000 California legionnaires.

## Advertising Of Dairy Products Discussed Today

Preliminary plans for additional advertising of California dairy products will be discussed at a special meeting of the California Dairy Industry Advisory board to be held in Santa Barbara, Aug. 29, it was announced by Alfred M. Ghormley of Los Angeles, chairman of the board. The meeting will be held in conjunction with two other statewide dairy groups.

The advertising committee of the board, headed by Ted D. Lewis of Los Angeles, will meet at the Di Anza hotel in Santa Barbara the evening of August 27 to propose certain advertising recommendations for adoption at the special board meeting.

## 200 Wacs Wanted To Fill Vacant Posts In Pacific

Major K. R. Lenzen, local Army recruiting officer, released the following information for former members of the Women's Army Corps:

"The Army needs over 200 Wacs to fill vacancies in the Pacific Theatre." All applications must be submitted to this office before Oct. 1, 1946. Only former members of the WAC are eligible for this assignment. Needed are 50 clerks (055), 95 clerk typists (405), 25 stenographers (218) and 30 administrative specialists (502).

For additional information bring your discharge and Form No. 100 to the local Army recruiting office in the post office.

## LOCAL EMPLOYEES TO ENTER FLOAT IN LABOR DAY PARADE

Local No. 380, United Public Workers of America, will enter a decorated Torrance Municipal bus in the Labor day parade in Los Angeles, according to W. C. Silence, secretary. Councilman permission has been granted for the entry.

## Musical Comedy Slated For Hollywood Bowl

One of the most notable events in California entertainment history will take place on Saturday evening, September 7, when famed Broadway producer Michael Todd brings to the Hollywood Bowl his widely acclaimed musical comedy "Up in Central Park."

Despite the fact that it was an extraordinarily lavish production as originally presented on Broadway, Producer Todd is rescaling the show to an even greater size to fulfill the requirements of the huge bowl. An entirely new production concept has been devised which demands the construction of the largest stage sets ever to be used for a theatrical attraction. The show will play in the Bowl for twenty-two consecutive nights in the longest engagement ever attempted there.

Michael Todd is the fabulous young showman who, in rapid succession, produced such Broadway hits as "Hot Mikado," "Star and Garter," "Something for the Boys," "Mexican Hayride," and the Matrie Evans' G.I. version of "Hamlet." He intends to present musical spectacles in the Hollywood Bowl for one month each season, each to be of a scope impossible to achieve in even the biggest Broadway theatre.
